SITE REQUIREMENT MANAGEMENT

*Automate the process of verifying a trainee's eligibility to participate in rotations with Site Requirement Management by E*Value.*

- Effectively manage and track the specific requirements for each clinical site in one central location.
- Automatically verify a trainee's eligibility to participate in rotations at a specific site.
- Ensure compliance with contractual obligations.

LETTER OF GOOD STANDING

Automatically generate documentation to verify a trainee meets the requirements necessary to participate in learning activities at a clinical site.

- Simplify the administrative effort to create custom Letters of Good Standing that fulfill the requirements defined by each clinical site.
- Program coordinators can automatically generate a trainee's Letter of Good Standing by populating a pre-defined template with data that is collected and/or stored in E*Value.
- Site coordinators have real-time access to the status & verification of trainees scheduled to rotate at their clinical site.

Dear Nancy Faculty,

David Student MSN 2 is in good standing at E*Value Demonstration Site. David Student is requesting to serve a portion of their clinical time with you.

We request that you please evaluate trainee David Student at the end of this rotation on-line within the E*Value System or on the evaluation form provided by the trainee. The evaluation form must be received by E*Value Demonstration Site after the completion of the activity so that the trainee's requirements are met. The trainee will not receive a grade and cannot graduate without this evaluation from you. We request that the form be returned within one-two weeks of completion of the rotation. Please make sure that your AOA or AMA number is listed on the evaluation to receive credit.
