Learning Portal

Train when you want, where you want.

Through our interactive learning management system, the Learning Portal, MedHub users have a robust set of training tools at their fingertips

The Learning Portal enables you to:

- Increase engagement with faster training for new MedHub administrators, coordinators, and office staff
- Improve effectiveness of MedHub across your programs and institutions
- Save time on orientation with a virtual overview of MedHub for new students, residents and faculty
- Ensure consistent, scalable training for all your users
- Empower advanced learning of APE, Accreditation Management, and Institutional Oversight
- Ensure easy adoption with Quick Start Guides

The Learning Portal, a learning management system, provides interactive learning content for MedHub users. Reduce the time and coordination to onboard new users and gain improved visibility into the MedHub competency of coordinators.

The Learning Portal can help you with MedHub deployment, adoption, utilization, competency, and reporting in a convenient, flexible, effective learning system.

Features of the Learning Portal:

Flexible
- Access learning any time, anywhere
- Seamlessly integrate MedHub training into your onboarding process
- Turn modules on and off as needed, only show relevant lessons to your team
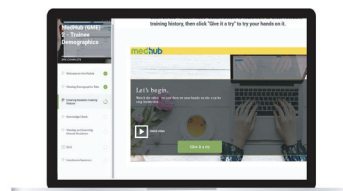

Data Driven
- Feedback given in each quiz and knowledge check
- Assessments in each module to measure knowledge retention
- Reporting at the individual and institutional level to quickly measure progress and expertise

Interactive & Immersive
- Full interactive platform simulations where the learner follows steps to complete a task
- Realistic scenario-based learning with knowledge checks

Incentivized
- Mobile and desktop friendly lessons allow people to learn when it works for them
- Portable badges for satisfactorily completing coursework and certificates for demonstrating widespread competency

Learning Portal +

GME Consulting will help you get the most with the Learning Portal:

+ A GME Expert will partner with you to interpret needs and areas for improvement, help develop a plan to achieve success;

+ Help you navigate the deployment, usage, and best practices;

+ Support your team while you roll out the Learning Portal, increase end user engagement, empower ongoing professional development of your program coordinators, faculty and residents/fellows.

Ready to see the Learning Portal?
Contact your Client Success Manager to see the program and how it can benefit you.
